Marshall Medical Centers

100-plus physicians, 21 specialties, 8 outpatient centers, two hospitals and a staff of more than 1200 healthcare professionals. The tradition of providing quality care in a convenient, close to home setting began for Marshall Medical Centers (MMC) in 1956 - and - more than 50 years later, MMC continues to meet the healthcare needs and improving the quality of life in Marshall County and the surrounding area.

In fact, we hear it time and again - things like "Marshall Medical sure offers a wide range of services." Or, "I didn't know Marshall Medical did that new procedure." Home town folks and newcomers alike are always pleasantly surprised to find so much expertise in a community-owned health system.

The reality is, Marshall Medical stays at the forefront of healthcare in both quantity and quality. We attract good doctors and other professionals, thanks in part to the excellent quality of life here. And we continually invest in the latest technology, giving our physicians and their patients every advantage when it comes to diagnosis and treatment. From routine check-ups to specialized care, the tradition of delivering quality healthcare is, and has always been, a tradition at Marshall Medical.

The Foundation for Marshall Medical Centers was established in 2007 as the fundraising arm of Marshall Medical Centers and is separately incorporated as a non-profit tax-exempt foundation.

All donations are tax deductible and will be acknowledged with a receipt from The Foundation within ten days of your donation.

The Foundation for Marshall Medical Centers is a public, not-for-profit corporation. Employer No. 26-0446391 is recognized as being exempt from federal income tax under section 501(c)(3).
