

## Mountain-lake living takes your residency to a higher level.

At full complement, our program will be a 6-6-6 residency, offering a comprehensive and supportive training experience in the heart of Marshall County, Alabama. Our community is located just minutes from Lake Guntersville and Lake Guntersville State Park, providing a unique blend of natural beauty and small-town charm, while remaining within easy reach of Huntsville, Birmingham, and Chattanooga.

Our continuity clinic is conveniently located on the ground floor of our primary training site, Marshall Medical Center South, fostering seamless integration between inpatient and outpatient care. Residents will also train at Marshall Medical Center North, gaining experience across diverse clinical settings throughout their three years.

## OUR LOCATIONS

### Our Mission

To train exceptional family physicians who provide comprehensive, relationship-centered care with excellence, compassion, and deep connection to rural communities. Anchoring our training in evidence-based practices, we develop skilled clinicians who will lead with purpose, champion health equity, and strengthen rural health systems for generations to come.

### Our Vision

To create thriving rural communities sustained by a strong network of family physicians who lead with integrity, cultural humility, and unwavering commitment to the people they serve. Our residency will be a catalyst for transforming rural health — a place where clinicians, educators, and communities work side by side to improve access to healthcare, elevate the quality of care, and secure a healthier future for all.

***If you are looking for a residency program where you can receive excellent training while becoming part of a community that truly values you, we would love to connect with you!***

## UAB Marshall Family Medicine Residency Program.

# Welcome to the UAB Marshall Family Medicine Residency Program.

Thank you for your interest in our new UAB Marshall Family Medicine Residency Program! We are currently in the process of obtaining accreditation from the Accreditation Council for Graduate Medical Education (ACGME) and anticipate welcoming our inaugural intern class in July 2027.

If you would like to receive updates on our program development and accreditation status, we invite you to join our mailing list.

Please contact our Program Coordinator, Tommy Ennis, at [tommy.ennis@mmcenters.com](mailto:tommy.ennis@mmcenters.com) for additional information.

## Training Experience

Our program is designed to develop well-rounded, competent and confident family physicians who are prepared to practice in a variety of settings. Highlights of the training experience include:

- Full-spectrum family medicine with opportunities in outpatient, inpatient, and community-based care of all ages.
- A close-knit, supportive environment where residents, faculty and staff quickly become like family.
- Community engagement integrated into the curriculum, with additional opportunities to participate in local events and outreach.
- A longitudinal Point-of-Care Ultrasound (POCUS) curriculum, with hands-on training in clinic, inpatient, and procedural settings to enhance diagnostic accuracy and procedural skills.
- Optional sideline sports coverage for local high school athletics.
- Opportunities to pursue advanced obstetric training with the goal of achieving competency for independent practice.
- Access to a forthcoming Emergency Medicine fellowship year for those interested in expanding acute care skills.

## Application

We welcome all interested candidates to apply to our program! The criteria below will be used in our selection process for interviews.

All our residency positions are filled through the National Resident Matching Program (NRMP). Only electronic applications submitted through ERAS are considered.

We anticipate interviews to occur between November and January. Applications received after we have filled all interview slots will be reviewed on a case-by-case basis to be considered for the wait list.

## Application Consideration Criteria

- Should have a clear, demonstrated interest in Family Medicine.
- Must have passing scores on USMLE Step 1 and Step 2 or COMLEX Level 1 and Level 2.
- Preference will be given to those with interest in rural medicine and/or interest in practicing in underserved areas.
- Must have successfully passed Step 3 if out of medical school for longer than three years at the time of application submission.

## Application Requirements:

- Personal statement
- Dean's Letter or Medical School Performance Evaluation (MSPE)
- Transcripts for medical school and USMLE / COMLEX examinations
- Three recent letters of recommendation

## International Medical Graduates Policies

In addition to the above criteria, International Medical School Graduates must also have at least one letter from a physician practicing in the United States and must contact the Educational Commission for Foreign Medical Graduates (ECFMG) for application materials and further eligibility requirements.

*Our program gladly accepts J1 visas sponsored through the ECFMG.*
