

# Care. It's part of our name for a reason.

*At Marshall Cancer Care Center, we place a premium on the human side of healthcare.*

What's in a name? When it was time give a title to Marshall County's own cancer center, including the word care was a given. Convenience counts, and so does the latest technology. But knowing that your doctors, nurses and technicians put the emphasis on patient comfort can make all the difference. Our name is a reminder that even the best treatment is more effective when it's delivered with care and caring.

*Dr. Gideon Ewing, along with Dr. Tom Payne and Dr. Jonathan Storey, provide coordinated care that emphasizes patient comfort.*
